

Work Smarts assists post-secondary graduates in gaining career experience and provides existing businesses with financial support to allow for organizational growth. This program aligns talented post-secondary graduates with organizations throughout Atlantic Canada and offers **mentorship and training** for both participant and employer along with a **wage subsidy for employers of up to 50%**.

Work Smarts participants receive up to 7 months of work experience in their chosen field, allowing them to utilize the skills they developed in school. Employers interested in hiring a graduate at a dramatically subsidized rate are encouraged to apply for this program. Opportunities are advertised online for graduates; and employers are provided a shortlist of pre-approved candidates for hiring selection.

If you are interested in growing your business with the help of Work Smarts, simply complete and return the attached application; please feel free to contact us for more information!

If you have any questions, please call (902) 429-2992 or email [worksmarts@smu.ca](mailto:worksmarts@smu.ca)

\*Placements begin June 3rd; Availability is limited!
